

Recent University Graduate

We have an opportunity for a recent graduate interested in obtaining their CPA and experiencing Canada's North. Experience in public practice with a focus on assurance services is recommended. Excellent knowledge of Canadian GAAP (ASPE, ASNPO, PSAS) and current financial statement disclosure requirements is an asset. Compensation value is highly competitive and includes housing, travel benefits and generous annual leave.

The predominant focus of our firm is providing assurance services to the unique and emerging economy of the Arctic. As such, staff members, in conjunction with the partners and senior management, manage engagements, identify and analyze client needs, and provide clients with remedies, options and advice. Successfully maintaining continual, proactive, positive relations with clients is essential to these positions. At times this requires travelling to remote client locations within Nunavut to service clients at their place of business.

Sample Tasks and Responsibilities

- Develop skills through planning and preparing audit, review and notice to reader engagements as part of a team using CAS and applying this to ASPE, ASNPO, PSAS and compliance frameworks
- Perform risk assessments
- Generate and analyze accounting data
- Work with clients' financial personnel
- Participate in meetings with clients and other team members

Professional Profile and Qualifications

You are developing a good understanding of business, accounting, management, and practice development principles; and the ability to explain technical matters to clients in a non-technical way. A key to your success is the ability to build relationships through understanding and adapting without compromising personal integrity and professional ethics.

Requirements

- Obtained a university degree, enrolled in or completed the PEP program

Preferable skills and experience

- Working knowledge of CaseWare and CaseView
- Experience in public practice with a focus on assurance services
- Taxation (T1, T2, T3) experience using Profile
- Experience working with not-for-profit and municipal clients
